A Game Built-In JavaScript Using the Phaser 3 Framework.

Interests

Music

I am an avid guitar player with a diverse appreciation for various musical genres. I find immense joy and inspiration in both playing and experiencing live music.

Technology

I'm deeply passionate about the ever-evolving world of technology. I enjoy exploring various topics because it keeps things interesting, and I find joy in consuming a diverse range of technological subjects. This approach not only keeps me engaged but also fuels my enthusiasm for the endless possibilities within the field.
